FOREWORD

IT is possible to get more style for the money, in mission effects, than in any other. Everything is perfectly plain, yet the construction permits very solid joints, the surface does not mar, and by re-waxing, the look of freshness is maintained for years.

Mission finishes can be kept at top notch all the time, without an expert always on hand. There are thousands of families of taste, all over the land, who like high-grade and artistic shapes, yet cannot afford to pay the prices charged by the exclusive factories of Europe and America. With high-grade mission effects, this objection is entirely overcome, and you are able to supply your customer with the very best in construction and finish, at the very lowest cost.

We always carry a large stock of these popular mission styles, ready to ship almost the same day order is received.

Our prompt shipments have made us famous indeed, and the dealers appreciate it.
